### DO YOU BELIEVE IN BEING SAFE?

To make assurance doubly sure, we would suggest that you insist on a title insurance policy with every loan you make, or every parcel of real estate you purchase. If you invest your money in real estate, you have a right to expect the very best security obtainable. You may have this if you will stand on your rights and demand it. The man who sells real estate or who borrows money on it, will furnish policy if you require it. Then why not have this guarantee against future dangers?

Important Cases Will Come Up for Hearing at Sessions Opening Today

DENVER Sept. 21—Cases involving the natural gas supply of Kansas City Mo. for fuel and light, the legality of ownership of oil and gas lands in Wyoming and alleged frauds in the sale of irrigated lands in Colorado are set for hearing before the United States court of appeals for the Eighth district at the September term which opens here tomorrow. United States Circuit Judges William C. Hook of Leavenworth Kan., J. E. Carland of Washington and United States District Judge A. S. Van Valkenburg of Kansas City will occupy the bench.

**EACH PARTY SELECTS CANDIDATE IN MASS.**

BOSTON Sept. 21—The officially recognized political parties, Democrat, Progressive and Republican, will hold primaries Tuesday for the selection of all state officers, members of the legislature and county officials to be voted for at the election November 4.

Lieut.-Gov. David J. Walsh will receive the Democratic nomination for governor and Charles S. Bird will be named by the Progressives. Neither has any opposition. The Republican candidates for the nomination are Col. Everett C. Benton and Congressman Augustus P. Gardner.

**HUERTA SAYS HE'S OUT**

(Continued from Page One) Huerta would exercise covert control over the electoral machinery.

Will Be Held to Promise

By all in administration circles who heard the news, however, it was agreed that subterfuge or circumvention of the promises implied in Provisional President Huerta's declaration today would be increasingly difficult and that the United States and foreign nations generally, with which it has influence, probably would be inclined to hold the Huerta government rigidly to its announced program.

The general feeling was that Huerta's promises, if carried out, meant the elimination, not only of himself, but of other government officials, including Fredericko Gamboa, Mexican foreign minister, suggested as the probable choice of the Catholic party.

The effect of these promises, though not made in diplomatic channels, is likely to be of considerable importance, as there is a growing tendency in Europe to act thereafter in accord with the United States.

There is a possibility that this country might ask other nations to withhold recognition if the election were not a proper one from its viewpoint.

United States Taking My Interest.

WASHINGTON, Sept. 21—The United States government is taking more than a passive interest in the developments in Mexico City. Chief among them has been the defiant opposition by a majority of the Mexican congress to the appointment of Eduardo Tamayo, one of the leaders of the Catholic party to the ministry of public instruction.

The opening of a fight by the Liberals in Congress to repress the influence of the Catholic party in governmental affairs is looked upon here as likely to force such a crisis as to reawaken an issue bitterly fought from time to time in the life of the republic. Church Lost Grip in State.

constitutionalists here declare the Mexican people never would brook a return of the church to a share in the government. They view the proposal of Huerta to place Tamayo in the department of public instruction as virtually turning over the educational system of the country to the clergy.

It is generally agreed that the suggested choice of Fredericko Gamboa, Mexican foreign minister, as the candidate of the Catholic party as well as Provisional President Huerta would open the fight on religious lines with more vigor than before. It is believed here that such a fight would tend more than anything else to unite the Liberals in the choice of a man who might prove acceptable to the constitutionalists and who might in the end make such concessions if elected as would restore peace.

Will Pass Americans.

FAILE PASS Tex. Sept. 21—Milding their declarations of yesterday that persons who crossed the international line into Piedras Negras, Mexico, from Eagle Pass would be required to pay a tax of \$1 gold constitutionalists leaders announced today that passes would be issued to any person recognized by the United States military authorities.

It is now impossible, it is said, that an effort will be made to have the United States declare closed certain ports of entry through which Mexican towns have been receiving supplies.

Constitutional leaders asserted to day that fear of invasion from the American side of the border by federal sympathizers was responsible for the issuance of the order.

Madero Murderer Assassinated.

WASHINGTON, Sept. 21—Lieut. Col. Francisco Cardenas, alleged to be the assassin of Madero, former president of Mexico, has been assassinated a killing to aid in the constitutionists here today. The adviser states that Cardenas was killed at Michoacan, whether he had been sent by President Huerta to take command of federal troops.

Lind Invited to Return.

VERA CRUZ, Sept. 21—Indirect efforts are being made from the Mexican capital to induce Mr. Lind, Pres. Wilson's personal representative, to return to Mexico City, but it is known that the suggestion has not emanated from the Mexican government and is believed here that Mr. Lind will not be induced to change his base of operations unless upon invitation from official sources in Mexico.

**Detective in Cell Near Prisoner He Had Just Captured**

MARTINEZ Cal. Sept. 21 After announcing that Alfred Nelson whom he captured, had made a full confession, B. H. Henry an agency detective, was arrested here tonight on a warrant sworn to by District Attorney McKenna, charging assault on a prisoner.

Nelson was supposed to know who killed District Attorney Maxwell and Deputy Sheriff Riordan in the recent hold-up job at Wheatland, Cal. Stories first given out were that Nelson told what he knew after some one "bought him a couple of drinks." District Attorney McKenna says Nelson was taken into a saloon and badly beaten up.

Detective Henry is locked in a cell with Nelson.

*Aviator Peayoud Makes Another Hair-Raising Flight at Verenilles*

VANCOUVER, Sept. 21—The French aviator Peayoud, who recently made an upside down flight, accomplished today another daring feat in his self-imposed task of proving the stability of the aeroplane. After mounting to a great height Peayoud dipped the left wing and his machine slowly turned over its side. The aviator flew for some seconds head downward. He then gained the upright position by gradually looping the loop. Peayoud's hazardous flight was watched with breathless interest by a great crowd.

Peayoud ascended 8,000 feet. Before looping the loop he went through series of most fantastic feats, tumbling forward and sideways, slipping backward and twice describing the letter S.

While making the loop, Peayoud was flying upside down at a height of 3,500 feet. He descended in this position fully 1,000 feet, completing the loop swiftly and gracefully.

**Day of Porterhouse in U. S. Almost Gone**

CHICAGO, Sept. 21—Unless there is an increase in the meat production in the United States in the next 10 years, porterhouse steaks will be selling at more than a dollar a pound, according to Gustav Buschhoff of St. Louis Mo., president of the American Meat Packers' association, which will begin its annual meeting here tomorrow.

If the production of cattle decreases in the same ratio and the population increases as it has, we will see the American workman eating rice and potatos, but no meat, he said.

**NO SLAVERY EXISTS IN PHILIPPINES, SAYS JONES**

WASHINGTON, Sept. 21—Chairman William A. Jones of the House Insular Affairs committee, author of a bill for the ultimate independence of the Philippines now pending in congress, took issue with Andrew W. M. Phelps of the Philippines, in a report who had reached so far that he had charged the existence of slavery in the islands. Representative Jones declared no slaves existed in the Philippines except in the provinces of Mindanao.

Madero Murderer Assassinated.

WASHINGTON, Sept. 21—Lieut. Col. Francisco Cardenas, alleged to be the assassin of Madero, former president of Mexico, has been assassinated a killing to aid in the constitutionists here today. The adviser states that Cardenas was killed at Michoacan, whether he had been sent by President Huerta to take command of federal troops.

**SCHMIDT EXAMINED BY AN ALIENIST**

Thought He Was Doing Right by Murdering People, He Tells Doctor

NEW YORK, Sept. 21—Apparently much against his will Hans Schmidt the priest who murdered Anna Anzinger planned other murders and invented a counterfeiting plant was examined today by an alienist, Dr. George S. Holley, neurologist at the Washington Hospital hospital. At the end of an hour's interview with the prisoner Dr. Schmidt said he was not prepared to tell Schmidt in plain man's language.

Dr. Scholer announced he would spend more time with the priest before announcing conclusions on his mental state.

Schmidt, according to Dr. Scholer, eagerly explained how he had been led to believe that he was doing humanity a service in committing the murder and planning many others in selling medicines intended for unlawful uses and attempting to make counterfeit money. The alienist told him that if he believed his conduct was right he was probably the only man living that thought so.

What does that matter? demanded the priest. Society was exalted because the government and the majority of the people thought his ideas were wrong but after several thousand years the world came around to his way of thinking. The fact that every one is against me does not prove that I am wrong. I may be right and they all may be wrong.

**377,000,000 CATTLE INSPECTED IN SEVEN YEARS**

WASHINGTON, Sept. 21—Three hundred and seventy-seven million animals have been inspected at slaughter houses in the last seven years by the government meat inspection service, as a part of the campaign to safeguard the food supply of the United States. This announcement was made in a report given today by the department of agriculture covering the entire period under the present law.

**BRIDGEPORT Conn. Sept. 21**

Three of the crew of the United States torpedo destroyer McCall were drowned in the harbor late last night when the tug Seaboard collided with the destroyer's power cutter in which four sailors, who have been on shore leave, were returning to the McCall. Seaman Thompson was saved by the tug boats. He said the names of his companions who were drowned were Sheenan, Russell and Chute.

**RUSSELL SAGE ESTATE VALUED AT \$64,000,000**

NEW YORK, Sept. 21—The first official figures that show the amount of the estate left by Russell Sage, the financier, who died July 23, 1906, are contained. It developed tonight in papers on file in the court's clerk's office in a suit brought by the state of New York against the Mercantile Safe Deposit company, in the vault of which Mr. Sage had deposited many millions worth of securities.

Mr. Sage is shown by the papers to have a \$100,000 personal estate valued at \$444,412. His real estate was appraised at \$1,045,860. Mrs. Margaret Olivia Sage, the widow, received \$67,000 on which the estate paid a tax of \$18,000. The rest of the estate went to 28 nephews, nieces, grand nephews and grand nieces of Mr. Sage, each receiving \$25,000.

**WHITE STRIKE ARBITER IN THE OHIO DISTRICT**

COLUMBUS, Oct. 21—Three thousand miners of the Bay City and Saginaw Mich. district will go to work Tuesday after a week's idle ness. John P. White, international president of the United Mine Workers of America, was named arbiter of the dispute.

The unofficial strike of the miners started last Monday following the dismissal of three miners. Operators asserted the dismissed did not conflict with terms of a blanket contract existing between Michigan miners and operators and the miners maintained the dismissed violated the contract.

President White will decide whether the dispute is subject to arbitration and if not, will act as judge of the conditions which led to the discharge of the miners.

**Spanish Princess May Be Deaf And Dumb**

MANCHESTER, England Sept. 21—Relatives of the queen of Spain have been shocked by the news that the second daughter of the queen, Infanta Sophie, will be born deaf and dumb on March 1, 1914. General, it is feared that the little Sophie, once totally deaf and dumb, will never learn to speak.

The possible effects of the birth physicians and specialists have partly broken the heart of Queen Sophie, constant companion to her children, the counts of Bardi, regal titles in the royal family. She has given birth to a son, Prince Alfonso, but he is deaf and dumb.

The possible effects of the birth physicians and specialists have partly broken the heart of Queen Sophie, constant companion to her children, the counts of Bardi, regal titles in the royal family. She has given birth to a son, Prince Alfonso, but he is deaf and dumb.

Hundreds are brought to this. In the case of distant states and those to come in a few weeks well and strong. Quite as marvelous are the thousands of

persons who consult the specialists while in the city in person receives the most ardent and sincere attention.

Great care is exerted in even the smallest details. Every one who consults the specialists in the city in person receives the most ardent and sincere attention.

**BRITISH PRAISE QUIMBY FOR PLAY; FEAR ECLIPSE OF ALL CHAMPIONSHIPS**

LONDON, Sept. 21—(Monday). The London morning papers joined in a chorus of praise for the great victory scored by British tennis who on Saturday won the open American golf championship at Brooklyn. They gave him a hero's welcome and the Daily News said:

As a golfer comes of 22 years, who can turn himself to such an accomplishment has an inhuman sense of proportion. It does not appear to have been realized on the other side that in last year's Open Gordon Watson and Ray also over 16 holes, upon any occasion would have been remarkable but Quimby has established a record beside which every other record in the history of the game pales.

The Standard said:

"The standards have withered on English bows in shooting polo and tennis. Now comes a further reverse in golf which Americans may be said only to have taken up seriously in the last 20 years. The two English professionals had the misfortune to meet in Quimby, a golfer who plays better than either of them."

The Daily Mail said:

"Golfers at this moment are engaged all over the world in a single, simultaneous hideous act.

## INEXHAUSTIBLE CRIPPLE CREEK

THE Cripple Creek District is truly a wonder, and one which does not diminish with years. It is the richest spot of ground on the globe, for it has actually produced more wealth than any other similar area in any land. Its mines have been operated for twenty years, and although the annual production has diminished, the amazing thing is that it has not diminished more.

Time and again mining men have predicted that Cripple Creek would begin to "peter out" at a specified depth not yet attained, but when that depth was reached the ore bodies were found to be as big as ever and in some cases even bigger. Ten years ago there was a tradition that nothing but low grade ore would be found below the thousand-foot level. But that level was long since passed and some of the richest ore has been found hundreds of feet below it.

A few days ago it was announced that nearly all the big mines have encountered a new ore zone of extraordinary richness in their lower levels. This has occurred since the water level was reduced to such an extent that further sinking could be done. The best informed mining men are now convinced that the camp is assured a brilliant future, at least for several years to come. Indeed, nobody is rash enough to predict an end to the Cripple Creek District, for the known ore bodies are vast enough to keep the mines working indefinitely.

Colorado is the most richly mineralized area of its size in the United States, and it is hardly reasonable to suppose that it contains only one Cripple Creek district. Somewhere there is another, perhaps several, securely hidden away awaiting the prospector who will discover its secret and develop its riches. The last man who will become a millionaire in Colorado gold mines hasn't been born yet, and it is altogether probable that another Cripple Creek District, as rich as the one in Teller County, will be discovered before many more years.

## FAKE DIETETICS

If all of the people who try to keep their digestive apparatus working with fake dietetic systems and pre-digested foods could be placed in line, two feet apart, they would reach from the top of Pikes Peak to the moon, with enough left over to go three and a half times around the earth. And if all of the money spent on such systems annually could be gathered into a pile of twenty-dollar gold pieces it would be a little bigger than the Exchange Bank building.

The statistics may not be mathematically correct, but they will answer the purpose. The world is full of dyspepsia, and the pitiful part of it is that it takes them ten years of experimentation to learn that it isn't worth while to experiment at all. Then they reach the conclusion that the best way is to eat what they want, provided it is wholesome, well-cooked food taken in moderation, and then trust to Providence.

Yesterday the Department of Agriculture, which through its Bureau of Chemistry has made a careful study of this subject, published an article warning the public against self-styled food experts and pseudo-scientific systems of dieting. It will produce a responsive thrill in the stomach of every experienced dyspeptic who has learned the folly of trying to make a teaspoonful of dessicated cornflakes do the work of beefsteak and baked potatoes. The better way is to eat, in moderation, the things your appetite demands, assuming, of course, that your appetite demands only wholesome food. And an added satisfaction is that you are thereby reducing the ill-gotten gains of the patent food fakers.

## THE WHEAT CROP

FOR some reason unknown all of us pay more attention to the calamitous events in the day's news than to the good, the hopeful things. Perhaps this is to be expected, body comments on the fact that the wheat crop was a partial failure and ignores the equally significant fact that the wheat crop

raised this year was the biggest in the history of the country.

The Mississippi Valley states believe that corn is king as firmly as the South believes in the supremacy of cotton. Perhaps it would be better if they gave a larger share of their allegiance to wheat, for they would not suffer such severe financial loss in seasons of drought. The partial destruction of the corn crop has inflicted a loss of many millions of dollars on the farmers of Missouri, Kansas, Nebraska and two or three other states which constitute the corn belt, but this is made up in large measure by the record wheat crop. The government estimate of the total wheat yield of the country is 754,000,000 bushels, or six million bushels more than the largest previous year, that of 1901.

There will be a slump in the automobile market in the corn belt for awhile, but the farmers who raised wheat will be able to discard their two-cylinder runabouts and buy six-cylinder limousines.

## BRYAN COUNTS HIS CASH

MR. BRYAN announces that he has ended his Chautauqua engagements for the season and has cleaned up a little more than sixty-five hundred dollars. He announces also that he is decidedly grouchy over the criticism to which he has been subjected, and just to show that he doesn't care he is going to lecture again whenever he has the opportunity, as long as he remains in the Cabinet.

Of course nobody supposed for a minute that he would do otherwise. As well expect Bosco, the snake eater, to quit the side show as long as he proved a paying attraction. Mr. Bryan said the other day that he considered himself "an additional attraction," and as long as he brings money into the boxoffice there will be Chautauqua managers willing to pay him even more than they pay the contortionists, elocutionists, snake charmers and other freaks.

But oh, what a spectacle for the world to laugh at! The Secretary of State exhibiting himself as an "attraction" for pay under the pretense that the Government does not give him enough money to live on.

**FROM OTHER PERSPECTIVES**

CUTTING RATES.  
From the Grand Rapids Press.

Taking as much of cut rates, the postoffice begins to sound like a drug store.

## A PLOT.

From the Philadelphia Ledger.

The logical thing for Congress to do next is to investigate the Athletics on the charge of conspiracy to keep the pennant from Washington.

## A FETISH WORSHIP OF FORMS.

From the London Times.

It is hardly too much to say in criminal cases as conducted in the United States that it is not the prisoner in the dock, but the Judge on the bench who really is on trial. It is the fetish worship of forms and rules that makes judicial procedure in America a hindrance to justice and a comfort to criminals.

## BALKAN RECUPERATION

From the Chicago Tribune.

At the close of the Balkan-Turkish war it was said that commercial travelers had kept out of the Balkan states for six months and declared that it would be six years before industry could regain its ground. Desolation in the larger cities of Servia, Bulgaria, Greece and Macedonia. Mr. Benjamin Maran reported on the evidence of private letters was widespread, and the governments unable to meet the demand even for bread. The first war had cost the Balkan allies about \$300,000,000 in direct cash outlay. Since then has occurred the desperate brief struggle to crush Bulgaria, bringing further destruction and the loss of many more lives. During the Turkish conflict 100,000 Bulgarians were killed or died of their wounds or disease, a loss equivalent to about \$800,000 in the United States. Very much higher estimates of loss and cost in blood and money have been made, but whatever the truth, it is certain that the Balkan peoples face a terrible problem of reconstruction.

In Bulgaria there are waste lands, says Mr. Marsh, totaling 5,000,000 acres, with 3,000,000 in pasture, and very backward agriculture in the remaining 3,500,000, which are naturally very fertile.

Two-fifths of Servia is uncultivated and the yield of cultivated land very low. The vines are said to be rich but capital is scarce because of the uncertainty of conditions. The negotiations are quiet, military, brewing, sugar refining, tobacco, manufacturing, now a government monopoly.

Bulgaria, called the "peasant state," has less than two-fifths of her territory under cultivation, a third in woods and forests.

Her manufacturers, however, have made a creditable beginning, there being 266 factories representing an investment of over \$100,000,000, having an output of about \$48,000,000 and employing 13,231 persons. The manufacture of food and beverages is the principal industry.

No group of nations ever needed peace, harmony, and cooperation more than these. They need capital and probably outside enterprise, but they will find both difficult to attract at this time. The strain on Europe is heavy now and capital is needed at home. If it goes into the Balkans it will not be for its health.

## COURTESY FOR MRS. PANKHURST.

From the Christian Science Monitor.

A rumor has gone abroad to the effect that when she arrives in the United States next month, Mrs. Emmeline Pankhurst will be refused admission and thus predicated action upon the part of the American government through its immigration officers, has become a subject of newspaper comment in London. So far as known at this writing, there is no substantial ground for such a rumor; it is possible that those in the direction of a movement diametrically opposed to that of which she is the acknowledged champion may seek to have the federal government turn her from these shores under a provision of the immigration law, but it is an effort will hardly be crowned with success.

The British government, it is true, has been greatly embarrassed and harassed at times by the conduct of the militant suffragettes and Mrs. Pankhurst has been held largely responsible for this conduct, but even when most irritated, a determined and resolute person like the British prime minister is likely to take a stand. Mrs. Pankhurst is no longer of official concern to the British government, but she is still a potent factor. She continues to represent the militant suffragettes and she has been held largely responsible for this conduct, but even when most irritated, a determined and resolute person like the British prime minister is likely to take a stand.

herself and her followers would not have been gladly accepted in settlement of all charges.

The proper course for the United States to take under the circumstances is to accept the British view, as France has already done, and to offer Mrs. Pankhurst a safe haven on this side of the Atlantic, reviving her under the same conditions prescribed for all visitors, and with the same consideration. She is not coming here as an immigrant, as an intending settler. She is coming as a lecturer, and she should be granted the same protection and privileges while here that Americans expect shall be accorded to one of their own number, under like conditions, in other nations.

Mrs. Pankhurst should be received kindly not only by the American government, but by the American people. One of her distinguished countrymen, not over partial to this republic at the time, was constrained many years ago to say that in their treatment of women the men of America were the most courteous in the world. Many things have changed since then, and not always for the better, but the men of America are still, we believe, deserving of this tribute, and we feel that their influence will be directed toward insuring for Mrs. Pankhurst such treatment as they would like their mothers, wives and sisters to receive everywhere.

## JOHN W. DAVIS NAMED FOR SOLICITOR GENERAL

144 more of the Lucky Blue Bird Pins go on sale this week at 50c each.

Clouisonne dove on Sterling Silver.

Hardy's  
16 North Tejon

## THIRTY YEARS AGO

September 22, 1883.  
The second annual Y. M. C. A. state convention continued in progress. It was well attended and a great deal was being accomplished.

Jack Langdale, the popular Colorado comedian, appeared at the Opera house in "Man in a Maze."

Hou W. H. Jackson returned from an extended visit in Philadelphia and New York.

## TWO MEDIATORS TRYING TO SETTLE THREATENED STRIKE OF TRAINMEN

## JUDGE WILLIAM LEA CHAMBERS

Judge William Lea Chambers, G. W. W. Hanger of the dethroned labor and Judge Knapp since their appointment under the National Guard as mediators by President Wilson in the threatened strike of the trainmen and conductors of western railroads have been hard at work to settle the difficulties. They held several sessions in New York city, where they listened to arguments and presentation of facts from both sides, and they considered the situation in Washington. A strike of the men would mean if they were anywhere near successful that most western cities would be seriously embarrassed for food.

ember 27, we will see an accredited New York success which is perhaps more peculiarly western than any other of the western-made triumphs which from time to time have been received with acclaim in the metropolis.

In this household a real thief is smuggled by a new maid, and the plot thus tangled in the first act calls for the appearance of a baton of policemen in the second, and the thrills begin. One valuable article after another disappears in the most mysterious manner, and in the search for the culprit many funny situations are evolved. Of course, in the end, it comes out that instead of the responsibility for the missing valuables being with the kleptomaniacs, the real thief is discovered, but the author has taken care that there is a happy ending, which is nothing less than a triple wedding.

**THE BIRD OF PARADISE**

"The Bird of Paradise," which is to be presented here at the Opera house one night only Saturday, Sep-

tember 27, we will see an accredited New York success which is perhaps more peculiarly western than any other of the western-made triumphs which from time to time have been received with acclaim in the metropolis.

The author, Richard Walton Tully, is a graduate of the University of California, and is in every respect a California man. The producer, Oliver Morosco, is the western genius who has taken New York by storm with his impressive plays and magnificent casts during the past two seasons. The story of the play itself concerns our westernly familiar possession, Hawaii. The actors, without exception, are either western-born or won their laurels in the west.

"The Bird of Paradise" is literally a play which "went east to come west."

While it is a sound, ethical, political and racial lesson, it is also a mighty strong drama and thoroughly absorbing love story.

Paul Wilson, a sterling young Amer-

ican physician, falls in love with a native Hawaiian girl named Loco, endowed with all the charms and seductiveness that an exceptional man or her sex is bound to possess.

Whether real in London or Tahiti, but beneath her velvety, brown skin, essentially and always an unashamed, passionate savage. The tremendous emotions which this primitiveness engenders, the passionate interplay of desires and hates and regrets which ensue, formulate the strong web of drama with which Author Tully has formed not only one of the strongest plays of recent years, but a drama having absolute literary quality, and which, for its almost prophetic satire upon religion, as well as political imperialism, is bound to live and be even more forcefully appreciated in a decade than now.

Mrs. Lenore Ulrich, as Luana; William Desmond, as Dr. Paul Wilson, and Robert Morris, David Landau, the original Hawaiian girls, dancers, and others of the large cast are to be seen exactly as in the eastern production.

THE COLD WEATHER HAS SET IN  
PRES. WILSON TO REVIEW

## U. S. TROOPS IN CAPITAL

WASHINGTON, Sept. 21.—President Wilson will be given an opportunity in the first week of October to review the largest aggregation of mounted troops of the regular army that has been assembled in Washington since the grand review of the '60s, of the semi-trained veterans led by Generals Grant, Sherman and Sheridan. This aggregation, composed of the Tenth, Eleventh and Fifteenth regiments of cavalry, has been encamped at Winchester, Va., since the middle of July and will break camp October 1.

It is planned to have these regiments march to Washington, where the president may review them.

AVIATOR AND WIFE HAVE  
NARROW ESCAPE FROM DEATH

TRAMPES, France, Sept. 21.—The noted French aviator, Henri Farman, had a narrow escape from death today. His wife was with him in his airplane, which, when at a height of 100 feet, was seen suddenly to dart towards the earth. The machine struck with great force. Farman, although not rendered unconscious, suffered a serious injury of the leg, and his wife's arm was fractured.
